In the restriction requirement of 9-29-2005 pharmaceutical composition claim 18 should have been placed in Gps. III and IV depending on whether the active ingredient contains N in the Y moiety.

The restriction requirement is repeated and made final for the reasons of record.

Applicants have elected Gp. IV with traverse. Claims 18-24 and 28-33 are under examination.

Claims 18-24 and 28-33 are objected to for being drawn to a misjoinder of invention. The non-elected material should be canceled.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 18-24 and 28-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 19, line 3, before "chemically" "and" should be changed to - - or - -.

The compounds of Gp. IV are allowable in substance. If applicants were to limit the pharmaceutical claim to the exact scope of the allowable compounds it would be allowable.

If applicants would do the same in a pharmaceutical method claim, where the use were limited to a primary headache disorder, it would be allowable.
